

The first thematic track “Nature-step by step”

The first thematic track “Nature-step by step” inaugurated at Harman-Dealul Lempes-Sanpetru At the beginning of August, the first thematic track of the LIFE FOR MARSH project was completed- “Nature- step by step”. This track is two-way - you can either start from Harman (near the fortress), or from Sânpetru (near the fortified church). The duration of this trekking route is 2-4 hours. The available activities are hiking, observing the flora and fauna. The route contains 6 thematic pannels. Two of them have general information about the route- a small map, its duration, the available activities, both being located near the fortresses. The others contain information about the marsh, the water circuit, the old oak, the plant species characteristic to the site, the fauna present in the area. So, dear nature lovers, we are pleased to invite you to a nice and relaxing walk!
